

Ethics Commission
Report to the Chevy Chase Village
Board of Managers
April 21, 2014

Mr. Brian Christaldi, Chair

- The first year of transition to compliance with the more extensive disclosure requirements of the new Ethics Code for the Village went quite smoothly.
- The Commission has provided informal assistance in fielding questions from potential filers with respect to the new disclosure questionnaires and resolving uncertainties.
- Only one request has been made to see last year's disclosure filings (and that was by a resident of the Village considering candidacy).
